AI Energy Public Company Limited

Environmental Management Policy

AI Energy Public Company Limited (“The Company”) are committed to sustainable business operations based on environmental responsibility. By recognizing and giving importance to minimizing environmental impacts from its business operations, the Company has formulated a policy to develop manufacturing processes in order to minimize environmental impacts which may occur. The Company has aligned its business policy in accordance with environmental laws and regulations, international standards, and sustainability standards. The Company creates awareness among employees to be aware of and take part in the Company's environmental culture. The Company comprehend the importance of evaluating, controlling, preventing and reducing environmental and ecological impacts from the Company's operations, which focuses on the management of pollution prevention at the source integrated in the aspects of air, water, waste management and improving energy efficiency using resources efficiently and sustainably to enhance environmental culture and increase the capacity to adapt to climate change and to reduce greenhouse gas towards a low-carbon society.

The Company's production process is designed as a closed production system to reduce the evaporation of methanol and chemicals used as raw materials in production are released to the atmosphere. The Company manages the environment systematically and in accordance with the prescribed laws and regulations, using indicators set out in ISO14001:2015 to achieve the Company's target, which has the main goal to reduce the impact on the environment, community, and society as much as possible. Therefore, the Company has taken various actions to achieve the amount of waste from productions to landfill to be zero, namely, efficient use of resources, waste reduction, and reuse.

Moreover, the Company encourage all employees to represent commitment to the environment and to offer internationally certified ISO14001:2015 standard to all stakeholders.

Effective date December 23, 2022
